Title of Collection: Records of the American Clan Gregor Society (ACGS)

Inclusive Dates: 1091-2009

Bulk Dates: 1950-1990

Size: 28 linear feet

Scope and Contents:
The collection includes both organizational records and genealogy research. The organizational records are primarily correspondence between council members from the mid-1950s to the early 1980s. The genealogy research on the MacGregor and Magruder family lines represents the work of several members of the society, including Thomas Garland Magruder, Charles Kurtz, and Regina Hill. This archival collection complements the society's Marshall Magruder Memorial Library, also housed at the University of Baltimore, Langsdale Library.

Historical Note:
The American Clan Gregor Society was organized in 1909 in Charlottesville, Virginia. Although related to the Clan Gregor Society of Scotland, the American group formed as a separate society in order to admit women and members whose surnames were derivatives—known as Septs—of the name MacGregor. The society's objectives, as stated in 1910, were to gather in distantly, to inspire cordiality among its members, to foster home ties, and to collect genealogical and historical records for the compilation of a complete and authentic history of it and its members. In addition to genealogical research, other society activities include the publication of annual Year Books, Annual Gatherings, and publication of the ClanGregor Newsletter.
