BATTLE OF NEW ORLEANS.

Painted & engraved expressly for the Columbian Magazine 1842.
Come my good People, open the gate at all right! We are the true Union Party because we all ride on the woolly horse...

Everyone I myself behind, and ahead of me, I erradicate the 'Black' Men, and find them all as bad as we...

Except when he calls me 'Little Mississip' and then he want to ride on.

There seems to be something on the road, but those fellows on the horse, will swear me through anything; so I'll keep on...

Hurry up the 'Express' or Brooks will be run off; his 'Express' Train and I've had an ride in his taxi-club lately, and I do want effect.

[Image of seven men dressed in formal wear, seated around a table.]
Powerful light draft naval vessels protect American lives, alleviating distress and assisting commerce on the upper Yangtze River. These gunboats penetrate regions over 1300 miles from the sea in a land where transportation and communication is primitive.
WHAT THE NAVY IS DOING

BE A SUB-MARINER

Work in submarines is interesting, technical and highly scientific. It is the beginning of a mechanical and electrical career, it involves the study of optics, of motors, batteries, electrical installation and oil engines. The Navy has many subs and just now a lot of keen eyed youngsters are wanted to become "monkey-wrench sailors". Promotion is rapid and for each dive there is extra pay.

THE NAVY ALSO GIVES EDUCATION, FOOD, LODGING, DOCTOR'S CARE, SPORTS AND AMUSEMENTS—BESIDES YOUR PAY.
